

Business payment solutions, elevated by private banking expertise

Fieldpoint Private, in partnership with Integrity Payments Group, delivers a tailored, custom approach to payment processing—one you won't find with the all-in-one big-box banks or merchant services giants.

Our team handles everything from accepting payments to managing cash flow and protecting transactions, creating payment strategies that help businesses operate more efficiently, reduce costs and accelerate cash flow. It's an approach designed to bypass bureaucracy, adapting quickly to meet your business needs.

With expert private bankers offering personalized service along with industry-leading technology, we help businesses move money securely and seamlessly—giving back to you the most valuable currency of all: time to grow your business.

PAYMENTS THAT WORK THE WAY YOU DO

Most payment processors offer a product. We offer a strategy. That means:

- **Solutions designed for your business.** Whether you're managing patient billing, high-volume retail, e-commerce, professional services or recurring subscriptions, we build payment flows that fit the unique needs of your business.
- **Resiliency you can count on.** Even the most robust networks can experience disruptions—that's why we build payment solutions with redundancy and failover protections to ensure uptime.
- **Expedite payment receipt.** Optimized processing and direct bank funding help keep cash flow moving so you're never waiting on payments.
- **Payments that work with your business, not against it.** Whether you take payments in-store, online or through invoicing, our solution integrates seamlessly with your existing systems.
- **Smarter payments, better business.** Payments shouldn't be a cost center, they should drive growth. We help businesses reduce fees, lower risk and build a payment strategy that scales.
- **Accept payments your way.** Offer customers more ways to pay—credit, debit, ACH, real-time payments, and digital wallets—while increasing approvals, improving terms, and mitigating risk.

PLANNING. IMPLEMENTATION. REFINEMENT.

We start with a conversation, not a contract.

- **We listen.** Every business is different, and so are its payment needs. We start by understanding how you operate, where payments slow you down, and what could work better.
- **We analyze.** Our team takes a close look at your current setup—breaking down costs, identifying inefficiencies, and spotting ways to make payments smoother and more cost-effective.
- **We build.** Based on what we learn, we craft a payment strategy that fits your business—helping you streamline transactions, improve security and scale with confidence.
- **We adjust.** As your business grows, we proactively optimize your payments to keep you ahead of the curve with new technology, cost-saving strategies, and risk mitigation tools.

THE RIGHT SOLUTIONS FOR YOUR BUSINESS

- **Accept Payments.** Securely process credit, debit, ACH, real-time payments and digital wallets.
- **Move and Manage Money.** Automate payouts, direct deposit switching and account verification for smoother transactions.
- **Security and Compliance.** Keep payments safe with fraud protection, chargeback management and regulatory compliance.
- **Technology and Integration.** Connect payments seamlessly to your eCommerce store, in-store terminals, invoicing systems and custom APIs.
- **Business Optimization.** Review real-time analytics, strategic consulting and commercial card optimization to lower cost.

WHY FIELDPOINT AND INTEGRITY PAYMENTS?

With Fieldpoint Private and Integrity Payments Group, you enjoy more than payment processing, you leverage a collaborative, complementary partnership to advance your business.

- **Tailored solutions.** Every business is different—we build customized payment strategies tailored precisely to fit your needs.
- **Bank-backed reliability.** Our partnership weds payment operational prowess with banking-grade security and financial expertise.
- **Comprehensive offerings.** From accepting payments to managing risk, we cover every aspect of payments.
- **Future-ready technology.** We stay ahead of industry regulations and payment innovations so your business is always ready.
- **Consultative partnership.** More than a vendor—a C-level relationship that acts as an extension of your team to optimize payments and strengthen business relationships.
- **Scale and experience.** Processing billions in transactions annually, Integrity Payments Group has helped thousands of businesses improve payment performance, compliance, efficiency and cost.
